How it works

DISCUSS

Book an appointment to be held in-store, online or in the comfort of your own home.

DESIGN

Our team will come back to you with a portfolio of suggestions that will help you achieve your desired look.

DELIVER

Upon delivery of your dream interior, our stylists will be there to help ensure everything is set-up and placed perfectly.

Let's get creative

When it comes to deciding on the look for your home and to make choosing easier, our Designers have a variety of creative ways to help you imagine everything beforehand.

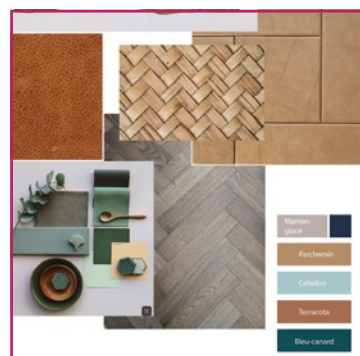

PRODUCT LISTS

A complete list of proposed home furnishings alongside matching images, measurements and pricing.

2D LAYOUTS

See the room flow, how the proposed furniture will fit into your space along with all the room measurements.

CONCEPT MOODBOARD

Inspiring imagery with colours, materials and shapes to give you an idea of the proposed feeling of your room.

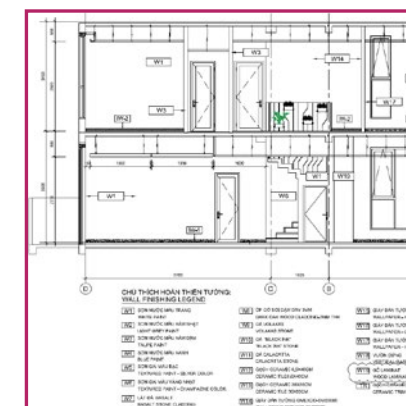

3D RENDERINGS

See the finished space before it's even done with all your selected product, finishings and decor items. More accurate than a 3D visualization, the 3D renders will give you a photo-realistic image of your space with a beautiful light.

DEVELOPMENT DRAWINGS

Elevation and detailed drawings for walls, floors, ceiling and lighting, as well as detailed Design for custom built cabinetry.

3D VISUALISATIONS

Our 3D visualisations let you see how the furniture and decor will look in your room from different angles. Not as realistic as 3D-renders, they will only help you have a better perception of the space with the basic colors and materials in a 3D environment.

FURNITURE MOODBOARD

Get a feel for the style and look of your room and see how your furniture pieces will all work together.

Design packages
